craft was a perfect circle, had portholes.
This Saucer is same type spacecraft
in "Flying Saucers have Landed" By George
Adamski on Mount Palomar. I believe
Veneraion Type Scout ship which lands on
carrier shaped like cigar. I believe I have
seen the people who operate this type of
spacecraft. I saw two of these people
in Los Angeles. They are very young looking

hair.

The saucer is approx 27-35' in diameter
and has port Holes and sperical landing
gear.

P.S. I can give you more information
on Ball lightning or The Nevada fire, or Saint
Elmo's fire if interested. Sincerely [redacted]
